LEVEL 6

WHAT WE CAN OFFER YOUR BUSINESS

The Health and Care Work Academy is a national pilot to help those out of work gain the qualifications and skills to enter employment in the Health and Care Sector or opportunities to progress within it.

Our **dedicated employer engagement team** can:

- Support with the **recruitment of new employees** who are Level 1 qualified and have the basic understanding of the Care Certificate
- **Upskill existing staff** through L2 and above qualifications or apprenticeship opportunities
- Assess your training needs and offer a **flexible program** which is responsive to your needs

There is also the opportunity for you to be involved in the courses through guest speaker sessions and mock interview panels which can provide you with an insight into possible new employees you might like to recruit.

By working together we could change the perception about a career in Health and Social Care!

A SUCCESS STORY

A Work Coach at the Peterborough Job Centre referred Mary to the Health & Care Sector Work Academy (HCSWA). Mary explained that she had been living in temporary accommodation and was hoping that if she achieved employment within the health and care sector she would be able to move to rented accommodation. Before starting the course, Mary said that she had 'a clear sense of the future direction' and that this course would help her towards her eventual goal of being a nurse in the NHS.

While on the course, Mary was supported by her mentor to apply for a Care Assistant role and to update her CV. Mary achieved a paid position at Park House Nursing Home. Mary then moved to rented accommodation.

Mary said that the course helped her to 'get a job and develop skills in the care sector'. Mary's ultimate aim is to attend more training to enable her to be a nurse and she would still like to be able to volunteer in her spare time.
