This is an important step in understanding the experience of people working in general practice and working with you to identify what changes can be made to better support your teams.

In 2024, 47% of our GP Practices took part in the GP Staff Survey. The reports are carried out on behalf of your organisations by an independent survey contractor, Picker. Survey responses are anonymised confidential. If you would like to take the first step on this process, [click here to sign up](#) by **Friday 27th June**.
