For Healthcare Professionals working in Primary Care

This practical session will provide an update on the assessment and diagnosis of COPD in primary care. Delivered by Joanne Hamilton, experienced respiratory nurse and educator, the webinar will cover current best practice, including: taking a history & diagnostic testing.

The session will include interactive case discussions, helping delegates apply learning to real-world scenarios, improve confidence in recognising COPD and support accurate diagnosis.

Joanne Hamilton
Respiratory Nurse Specialist

You will receive a certificate of attendance with 1 hour of educational content towards your Continued Professional Development upon completion of this training
